#### DROWNING MAN FOUGHT HIS BRAVE RESCUER.

Had to Render Straggler

seen efforts on the part of Policeman Joseph Lyons of the Fifth and Race street station to rescue John Comley. 24 years old, of Wilmington, from drowning. The man apparently did not realize what he ing when he retarded the bluecoat's

efforts to save his life.

Cominy in some manner fell off Race street wharf. As he touched the water he gave a cry for help which was heard hy Folioaman Lyona. Pulling off his coat the bluecoat fumped into the water and endeavered to bring the drowning man to shore. Comiey fought him and for a time Lyona had difficulty from preventing the fremised man from pulling him down. Finally Lyona released Comiey's grasp. Swimming off for a few strokes the polioaman turned, and, hitting Comiey under the chin, rendered him unconscious. He then brought him ashore. Conley was taken to the Pennsylvania Hospital, where he became so violent that he had to be strapped down to his cot.

### SHOT MOTHER, MAY GO MAD.

Eighteen-Year-Old Son Thought She Was a Chicken Thief.

### JUDGE'S QUICK DRIVE TO MAKE ELECTION SURE.

ry to Get the Return

REPUBLIC SPECIAL. Cordele, Ga., Oct. 22.-Judge Tom Mus-

he Eleventh District, drove into Cordele t 9 o'clock to take a train for Vienna with the election returns. After be got here he found that he had come away from home without the necessary return sheets. He did not at the time think idation of returns at 11:30.

Williams, a liveryman, was held, Mr. Williams took the contract to drive Judge Musselwhite to his home, get the return drive back to Cordale and then on to Vi-enna, landing the Judge and his important bunch of votes there by 11:20.

The start from Cordele was made a lit-tle after 3 colock. The ent're distance of about twenty-five miles was covered and the Judge was landed at the door of the Courthouse just as the minute hand of the big clock went over the 11:22 mark.

### "FRIDAY" WELL A DRY HOLE.

Oil Workers Predicted Its Fail ure Because of Name.

She Was a Chicken Thief.

\*\*\*BUBLIC SPECIAL\*\*

Suffork, Va., Oct. 22—Being taken for a chicken thief by her Byear-old son Herbert, Elen Jones of Ivor, Va., was shot in the back, the builet penetrating her liver.

Aira Jones was taken to a hospital, where her life hangs by a thread. The ball has not been extracted.

There are fears that the son will go mad.

The grim menace and the horrors of the surgeon's knife no longer tand between the patient's apprehensiveness and the cure for rupture, for it has been discarded in Doctor Lewin's method, and instead of weeks of suffering and doubt, each day of the period during which a estient is undergoing treatment you note increased comfort and gratify-

Were other evidence lacking in the doctor's claims to the successful treatment of rupture, a single consultation with him would convince the most skeptical that he has a humane, safe and certain cure for

His treatment operates with peculiar efficacy and in the shortest possible period of time. His patients show marked improvement as soon as the treatment is administered and takes action, and a few days only are required to show that the conditions for the removal of the trouble are surely and persistently at work.

Where unrest, loss of life's pleasures and the almost total abandonent of hope had with this terrible disease invaded, the Lewin method has restored the sufferer and brought back the ties which make exist-ence a boon and blessing. It is sheer folly to discard what facts dis-close; and when pain can be abated and its causes and continuance abolished, why should there be any reluctance to make use of this remedy? This is most surely in the power of this physician, as he will demonstrate to the positive conviction of all sufferers from rup-ture who will place themselves under his treatment. Thousands who have been sufferers from this much-dreaded allment, some who have been sufferers from this much-dreaded allment, some who have been afflicted with it for several scores of years have come to Doctor Lewin and are now enjoying life blessed with the greatnest gift af-forded, viz, health. It only requires a few weeks' treatment to over-come the worst forms of the disease, and hundreds have been cured sunced incurable by physicians in general practice.

Consultation and advice given free to every one who seeks it. Call

## **EQUAL SUFFRAGISTS** ELECT OFFICERS.

Women Demand That "Sex' Shall Be Eliminated From Proposed Constitutions.

CLAIM RIGHT OF VOTING.

Will Oppose Admission of Terri tories Into Statehood if Amendment Is Not Made -Will Organize.

If Uncle Sam is anxious to add two stars to the blue of his flag by the ad-mission of two new States at the next session of Congress, he will, according to the women suffragists, get right down to pen, ink and blotter and take a little dictation from the women of the United States

The Women Suffragists, who have been in convention at the Christian Endeavor Hotel, have decided that Uncle Sam mus scratch out the little word in the proposed constitution of Oklahoma and Artzona. That word is "sex," and it is maintained by the women who believe they ought to vote that to leave it in would forever bar them from exercising the right of suffrage in the new States. The Missouri Equal Suffragists elected their officers at yesterday afternoon's ses-

sion, and at the same time laid out work for them that will keep them busy for a year to come. All of the retiring officers were researcted without opposition, as fol-

were re-elected without opposition, as follows:

Mrs. Alice C. Mulkey of St. Louis, president; Mrs. Francelina King, Hopkins, first vice president; Mrs. Mamle Warren, Maplewood, second vice president; Mrs. Tillie J. Ford, St. Louis, corresponding secretary; Mrs. Busan Martin, St. Louis, recording secretary; Mrs. Busan Mrs. Senators and members of Congress from all the States to influence them to reject the constitutions of Territories seeking statehood unless they leave open the opportunity for women to obtain the right to vote and have a voice in public affairs.

Mrs. Francelina King of Hopkins, Mo., who is first vice president, offered at the morning session to take up the work of organizing the women suffragists of Missouri Executive Committee.

The morning session of the Missouri Equal Suffragists was called to order at 10 a. m., with about twenty delegates present. The entire morning was devoted to routine work, reports of committees and officers.

The afternoon session was from 2 to 4

routine work, reports of committees and officers.

The afternoon session was from 2 to 4 o'clock. Mrs. Alice C. Mulkey of St. Louis, the State president, made a forcible talk on equal suffrage in the two proposed States, and pointed out in the bills that had been drawn up to admit the new States the word "sex," which was so placed as to exclude forever women from voting. The paragraph referred to, as read by Mrs. Mulkey, was: "That said State shall never emect any law restricting or abridging the right of suffrage, save and except on account of illiteracy, minority, sex, conviction of felony, mental conditions or residence."

Mrs. Mulkey said the women objected most vigorously to being classed slong with mental and moral degenerates, criminals and nourresidents. Taxation without representation, she said, was the worst form of legal tyranny.

Mrs. Mary Calkins, president of the St. Louis Humane Scolety, was elected a delegate to the National Convention of Women Suffragists, which is to meet in Portland, Ore.

A third session was held last night, at which addresses were delivered by the Reverend Thomas B. Wadleigh on "The Condition of Women in Various Countries" and by Mrs. Clara C. Hoffman, State president of the W. C. T. U.

### PASSENGER TRAINS WRECKED FOR PUBLIC AMUSEMENT.

On October 30 at Delmar race track will a passenger train. As horrible and as culiar fascination, for many have been the wrecks of passenger trains and few have been the people that have witnessed them. Many have been unfortunate enough to be

been the people that have witnessed them. Many have been unfortunate enough to be in a wreck and others have seen the wreck immediately after the collision, but it remained for a company of enterprising World's Fair managers to reproduce a railroad wreck so that it could be witnessed by the public at large.

On Sunday afternoon, October 30, the Delmar race track will witness the most modern and 'hrilling exhibition ever presented to the public. Two large passenger locomotives, of sixty tons capacity, carrying conches and sleepers, will be sent to gether at a speed averaging about forty miles an hour. These monsters will be steamed and fired up to the last notch, when, at a given signal, they will dash down the long stretch of track and meet as if in deadly combat. It is beyond the power of man to describe fully this aweinspiring scene. One reads in the papers with horror of a "head-on" collision, and can scarcely realize what it means, for even those who are caught in a wreck of this kind are given scarcely a moment's notice of the terrible calamity that is to befall the train.

The engines selected for this exhibition are of the Baldwin type, with driving wheels sixty-four inches, and are capable of running sixty miles per hour, so one may judge what an awful meeting it will be when these two monsters collide. Railroad wrecks generally are caused by the misinterpretation, or the disobedience, of orders. It is always the aim of all first-class roads to avoid accidents of all kinds-firstly, because they are dangerous, and, secondly, because they are costly.

Schoon has there been an opportunity type to the public at large to see a pre-

of all kinds-firstly, because they are dangerous, and, secondly, because they are costly.

Seldom has there been an opportunity given to the public at large to see a prearranged "head-on" railroad collision. There have been many grand spectacles produced during the Work s Fair period, but the "head-on" railroad collision to be given at Delmar Race Track on Sunday, October 20, is the climax of grand spectacular productions. Grand, because it is realistic-spectacular, because it is a spectacle that seldom falls to the lot of man to witness. It is the intention of the management to secure for the visitors all the comforts that can be obtained at any place of amusement, and, seated in an arena completely covered from the weather, in one of the finest grand stands in the United States, they will have presented to them one of the most weird, grand, awe-inspiring and novel spectacles ever shown to the American public. In order that there be no rush or crowding at the entrances on that day, tickete for the grand stand for this weaderful performance will be on sale at the Chicago and Alion ticket office, corner of Sixth and Olive, on and after October 18.

### \$100,000 BABY NAVY.

Some Very Interesting Facts Con There are thirty vessels on the minia ture "sea" in Naval Show Park, west end of the Pike, that participate in the great battle of Santiago. Ten of these ships are fighters which were destroyed while at tempting the daring run for the open sea under the command of Spain's daredevi-fighter, Admiral Cervera. The other twen fighter, Admiral Cervera. The other twenty are utilized in representing Schley's position in the blockade and in the victory.

One boat after the other of Cervera's command is disabled amid the booming of the fort guns and the roar of the ships batteries. Two Spanish boats are actually blown to splinters by powerful torpenoes, which are sent forth by Schley's death-dealing torpedo-boats. One fort after the other on the edge of the harbor protecting More Castle is destroyed by bursting shells is initing powder magazines.

And, finally, the white flag rices over santiago Harbor, a few parting shots and peace hovers over a scene still rampant with the choes of the last fundilade.

These mainture fighters are built entirely of steel, equipped with the most TO WINDOWS ON THE STATE OF THE **ORIENTAL**

ELEPHANT "SHOOTS THE CHUTES."

One of the Interesting Exhibitions a

the Hagenbeck.

The Carl Hagenbeck exhibit, which forms one of the most notable features of

the Pike at the Louisiana Purchase Ex-

position, is the largest and in many respects the most interesting that has seen shown by him at any of the great expositions. Most conspicuous of the new features which lend it a special interest

is the large open-air panorama, in which

is the large open-air panoram, in which a most successful attempt has been made to cage a motley assemblage of wild animals that are in their native state bitterly hostile to each other in a common inclosure, and to reproduce this inclosure a face mile of the dens. Iairs, mountain fastnesses and gorges which the wild animals love to frequent when roaming at large.

A real jungleland, which has its story, a story of crafty hunters, of secret pitfalls and captives taken alive at dead of night. Only the leaves, the newspuners of the woodland, tell of strangely missing members of hairy familes and whisper of human tragedies, the bloody aftermath of brute resistance to the wiles and treachery of the human intellect.

A part of the mass of natural scenery called the Animal Paradies is a wild and mal "shoot the chutes." There is something extremely incongruous in the ides of this very modern and thoroughly human form of sport having any attraction for the beast of the field but as a matter of fact several of the Hagenbeck collection have taken very kindly to the chutes, none more so than the elebiants. The slide is covered with longitudinal bars of iron to give the necessary solid ng facil

sings is covered with longitudinal bars of from to give the necessary sild ng facil-ity, and it is more than comical to see the elephants bravely mount to the top-plant themselves on the silde and make the wild sweep into the deep pool of wa-ter below.

GUIDES INCREASED AT ALPS.

Patronage of the "Trip by Rail" Has

Become Enormous.

An extra force of guides has had to be

employed by the Tyrolean Alps Company to take care of the visitors to the pan-

orama, "A Trip by Rail Through the Alps." The increase in patronage in this

place has been most remarkable within

the past two months. One of the most

enthusiastic crowds of visitors to this at

traction was a party of English tourists

traction was a party of English tourists who are thoroughly familiar with the original Alps, and who went through the panorama on Friday.

They declared that they had never seen a reproduction of any kind so wonderfully realistic. This panorama was painted by the noted Berlin artist, Joseph Rummeispacher, and is the most expensive piece of work of its kind the world has ever known. The mountain side and the elevator ride are sources of great eport and enjoyment to those who go through the panorama.

water ride are sources of great sport and enjoyment to those who go through the panorama.

The dining halls of the Tyrolean Alps are all provided with heating apparatus, and whenever the air is chill the heat is turned on, so that the patrons of the place will be comfortable. A small band has been recently engaged by the Tyrolean Alps Company to play in the upper-floor dining-room of the Town Hall building. The Tyrolean singers supply music to the patrons of the lower floor, or Rathskeller. The big orchestra of 100 pleces is still giving its concerts in the large main dining hall, under the direction of Karl Komzak of Vienns, the greatest leader in the world of popular music, and Max Bendix of New York, the famous American conductor.

dictor.
The art gallery, containing paintings by the most noted artists of Tyrol, and wood carvings which astonish all who behold them, is quite a point of interest to those who visit the Tyrolean Alps. So is the Village Street, with its great number.

There is also a marked increase in the patronage of the Passion Play of Ober ammergau, given in the church building and the Automatic Orchestra. FERRIS WHEEL IN GOOD LOCATION One of the Marvelous Examples of

Engineering Work. great expositions held during the last fifteen years have produced two marvelous examples of engineering and constructive ability. One of these, the Eiffel Tower, was designed and built by a Frenchman at Paris for the Exposition of 1889; the other, the Ferris Wheel, was do signed and built by the late George W. G. Ferris for the World's Columbian Exposi-

tion at Chicago, in 1892.

The problem of moving the Ferris Wheel from Chicago to St. Louis was stupendous, as 4,390 tons of material, including the seventy-ton axle, besides engines, boilers and derricks and falsework, had to be transported. One hundred and seventy-five freight cars were required to move this material.

ty-five freight cars were required to move this material.

The dimensions of the wheel are as fol-lows: Diameter, 250 feet; weight, 4,200 tons; height, 284 feet; number cars, 25; ca-pacity per car, 60 persons; size of cars, 13x 25 feet; weight of each car, 11 tons; size of engine, 2,000-horse power; diameter of axle, 32 inches; length of axle, 45 feet; weight of axle, 70 tons; time of revolution, 20 minutes.

weight of axle, 70 tons; time of revolution, 20 minutes.

The location of the wheel in the center of the Fair grounds gives one an opportunity to thoroughly familiariae themselves with the lay of the grounds and get a better general idea of the Fair than they could by days of tramping. The Cascades, the Plateau of States, all the big buildings, the Pike, Festival Hall, the Art building, Foreign buildings, Philippine Reservation, the Airship Enclosure, in fact, every point of interest in the grounds can be seen from the big wheel. In addition, one gets a view of St. Louis, the Mississippi River and the forests, bills and dales for fifty miles around. At night the view of the illumination of the buildings and grounds is magnificent. Hundreds of thousands of incandescent lights bring the outlines of all the buildings in bold relief. The Festival Hall and the Plateau of States are flooded in turn with white, red and green lights, making a beautiful effect.

#### "RENAULT DAY" AT THE FAIR. Will Be Celebrated in the Kentucky Building. "Renault Day" will be celebrated at the

Fair on October 25, the ceremonies taking place in the Kentucky building, on account of the large number of the Renault Society residing in that State. This day, on account of its historica significance, will rank among the first in importance, President Francis and Governor Dockery being among the speakers. It was Renault who headed the expedition up the Mississippi River which resulted in the founding of St. Louis by two of his lieutenants, Laclede and Lamott who, while he was exploring the upper waters of the river, remained here and started a settlement.

A poem entitled "Louisiana" has been written for the occasion by Mrs. Eugenie Tark of Paducah. Ky., a descendant of the famous explorer, Clark, and will be read by her upon that day.

Her poem is in the nature of a tribute to France, and all French representat ves n St. Louis are invited to be present at the ceremonies. significance, will rank among the first in

### Wonders of Fair Japan.

The front of "Fair Japan" alone should e a sufficient guarantee of the excellence of the attraction. It, as were the many buildings on the interior, was designed by a Japanese architect and is remarkable for its beauty, symmetry and architectural gracefulness. Typical streets of Tokio, hanging garders, lovely lagoons, rustic bridges, a profusion of flowers, graceful pagodas, a genuine Buddhist temple, the Japanese Theater and a thousand and one other attractions compel the hearty admiration of visitors. Hundreds of Japanese to be seen in the spacious domain of "Fair Japan," plying their various vocations, selling goods, carving ivory, hammering braas, making rice cakes, just as in their native country, while in the gardens and in the theater appear all kinds of Japanese performers—acrobats, jugof the attraction. It, as were the many

#### OPERATIONS A FAD. Public Gradually Awakens to the Fact

The latest fad in operations has been the appendicitis fad; before that the fad for rectal operations (piles, etc.) held away. Hundreds of patients were frightened and hurried into hospitals, operated upon and robbed of their last dollar, when the trouble was a simple case of hemorrholds or piles only, easily cured at home with a simple remedy costing but fifty cents a box.

"I procured one fifty-cent box of Pyramid Pile Cure of my druggist, with the intention of buying a larger box later, but was hapolly surprised when I found that I was cured, and still have six pyramids left out of the first and only box I have not had the least sign of piles since I used the sone boy which has been about two months; previous fo using Pyramid Pile Cure I had the worst kind of bleeding and protruding niles for over thirtyone years, and no one knows, except those who have had the piles, the pain and misery I suffered.

"I am a poor man, but have often said I would give a fortune, if I had it, to be misery I suffered.

"I am a poor man, but have often said I would give a fortune, if I had it, to be cured of the tiles, and now I have been cured for fifty cents. I should be very ungrateful if I d'd not thank you and give you ever privilege to use my name and this letter, when I know there are so many who suffer as I did." J. A. Welse miller, 1100 Bladensborg road, Washington, D. C.

miller, 1000 Biancensous, 1000 D. C.
The Pyramid Drug Co., Marshall, Mich., 100 poblish a little book on the causes and, cure of piles, which they will be giad to mail free to any applicant, and we advise all sufferers from this painful disease to write to them for it.
